Namibia is known for many things. Winter in Namibia means BILTONG!!

Winter in Namibia also means very DRY SKIN and a very washed-out WINTER-TAN!!

Now you can defy both the DRY SKIN and the washed-out WINTER-TAN by joining us in our End-of-June-Tanning-Special.

**25% off on our very special Über Tan Treatment
25% off on all Über Tanning Products**

Tan in a Can

Über Beauty Namibia

Über easy to apply, each product in the Über tanning range is specially formulated not to over-tan. The colour will never stray more than two shades darker than your own skin tone. Tan Über is the designer grooming range without the designer price tag. Created by leading tanning standards—only the most exotic and skin enriching ingredients are used. These ingredients give you the most effective yet affordable product possible.

The Über tanning range is infused with:

DHA—Derived from fruit sugars and vegetable glycerine, natural DHA is used to create the most natural tan colour.

Oriental sea kelp—Boosts skin's collagen

and elastin levels by preventing the breakdown of hyaluronic acid.

Cottonflower—The extract from cotton petals, is world renowned for soothing, refreshing and moisturising.

The portfolio includes:

Tanning spray—Easy to control. Easy to use. Ensures even coverage. No hassle and no fuss!

Daily face cream—Light and non-greasy. Nourishing and skin protecting. Subtle but effective! Perfect for everyday use.

Daily body moisturiser—All year round gentle glow of skin. Rejuvenating dull complexions. Instantly rehydrating dry skin.
